GRUNDIG

for the Musical Perfectionist

The new model TK 12 Grundig Tape Recorder was made for people like YOU—people who would rather have silence than music imperfectly reproduced.

This TK12 records and reproduces music—from solo to full chorus or orchestra—with a fidelity that must be heard to be believed. The reason for this is that its frequency range (50 to 12,000 c.p.s.) is so great that all *audible* sound is comfortably within its compass.

You don't have to be "mechanically minded" to use the Grundig TK 12. Push-button controls, a magic-eye tuning device and an automatic stop makes its operation a simple matter. Track-buttons show you which track has been used, and an illuminated indicator shows you what point the recording has reached. Tapes can be kept for replay, or used over and over again.
